Step by Step Instructions

Step 1

Get a sheet of Tim Holtz Sparkle Alcohol Ink cardstock and add drops of blue and green alcohol inks and blending solution. Use an air blower to move the ink around.

Step 2

Next cut a section 3" by 4¼" from the inked panel, picking the section you like the most. Then adhere it to the top of a 3" by 6" card base, making a mini slimline size.

Step 3

With scissors, curve panels of white card stock and ink the tops of them with "Iced Spruce" Distress Ink and then add them below the inked panel to simulate snow drifts.

Step 4

Stamp the stamp set, including sentiments, on white cardstock and then colour them with alcohol markers and colored pencils, then fussy cut them out.

Step 5

Arrange them on the card front and glue them down.

Step 6

With a white gel pen, add white snow dots and "Fluffy Stuff" on the card in different places and heat with a heat tool to get it to fluff up!
