- 40980** A4 White Card

These handy tools will make your creation process much simpler!

3D Foam Tape, Alcohol Markers, Heat Gun, Craft Knife and scissors

Step by Step Instructions

Step 1

Ink up your away in a manger stamp using Perfect Medium Clear Ink Pad, and stamp twice on to white card. Heat emboss using Cosmic Shimmer Black Detailed Embossing Powder.

Step 2

Using Alcohol markers colour in the boarder on one stamped image and on the second colour the center part. Once both images are coloured in, trim down to the edge of the stamp, and cut out the center of the stamped image with just the coloured boarder.

Step 3

Take a piece of white A4 card trim down to 297mm x 105mm and score at 148.5mm. This will make an A6 short edge landscape card. Take the Merry Christmas stamp from Woodward Christmas Sparkle stamp set and stamp inside vertically on the right-hand side, heat emboss with black embossing powder. Measure the width of the sentiment and trim the front of the card to reveal the stamped "Merry Christmas".

Step 4

Glue your coloured image on to the front over your card with cosmic shimmer glue. Take the coloured boarder and mount with 3D foam and stick to the card.

Step 5

You have now created a modern 3D stained glass window card.
