- WW2352** Woodware Anti-Static Pad
- VM-001** VersaMark Watermark Ink Stamp Pad

These handy tools will make your card creation process much simpler!

Die cutting machine, Mounting Foam, Craft Sheet

Step by Step Instructions

Step 1

Cut a piece of Bright White Card measuring 19cm x 10cm and wipe with an anti-static pad. Stamp the Smashed Glass Stamp with Versamark Ink and sprinkle Viola Lavender Embossing Powder over the image and heat emboss with a heat tool.

Step 2

Now spray the heat embossed image with all 3 Airless mister colours, as were going for a inky look we sprayed close to the card and allowed the colours to blend. Blot with a tissue and allow to dry, or use a heat tool to speed up the procss.

Bumble Bee Card

Step 3

Die cut the Bumble Bee Edger Die out of Bright White card and trim to fit the background piece.

Step 4

Stamp a sentiment with Archival Ink, we used Hello from the Woodware Made From You Stamp Set, and cut out with scissors.

Step 5

Add a strip of tape along the long edge of your background piece and onto a small piece of Bright White Card. Now peel the top layer and sprinkle on Glitterbitz and burnish in. Adhere your sentiment onto the small piece and trim as desired.

Step 6

Create a card blank by scoring half way down a piece of card and trim to size to fit the background with a slight border, if you wish.

Step 7

Adhere your background to the card blank and layer the rest with mounting foam creating dimension.

Step 8

Die cut the Bumble Bee Edger Die out of Bright White card and trim to fit the background piece.
