Step by Step Instructions

Step 1

First I started by stamping my images onto a piece of super smooth card stock, suitable for colouring with alcohol markers.

Step 2

I then went ahead and coloured the images using alcohol markers after having researched into colours of the 'hippie' era.

Step 3

Then I fussy cut all of the images and words out using the small woodware scissors.

Step 4

I popped these aside whilst I cut my matts and layers. My white layer was approx 90mm x 200mm. I used the Sakura black fineliner to draw the border. I adhered this to the black card panel which was approx 95 x 205mm using Cosmic Shimmer Dries Clear Glue. This was then stuck down to a card blank measuring 100mm x 210mm; a UK DL size.

Step 5

Once I layered up my card, I went ahead and adhered all the wording and images using my Cosmic Shimmer acrylic glue.

Step 6

I finished off by adding some white highlights using a sakura gelly roll pen.
