## Step by Step Instructions

### Step 1

Cut your base from black card and tap a white paint pen over it to create white splatters to create a snow effect.

### Step 2

Cut a piece of scarlet card slightly smaller than the black, so the black card creates a border. Now die cut a aperture big enough to allow the design to be seen, we made it slightly smaller so you can poke out the bird's tails to give a better effect.

### Step 3

Die cut from white card the Creative Expressions Paper Cuts Under The Mistletoe Edger design, and run through again in red and green so you can use areas to paper piece. Use sticky tape on the back of your paper pieces to keep them in place.

### Step 4

Mount your black card onto a card blank with mounting foam. Glue your Paper Cut design on and through the aperture of the scarlet card, then mount onto the black card with mounting foam.

### Step 5

Stamp a sentiment in your craft stash and mount with glue onto an extra piece of black card and place as you wish. Glue design on and through the aperture of the scarlet card, then mount onto the black card with mounting foam.
